How to Find and Install using Desktop Manager

To download the BlackBerry Trader you will need to add the application using BlackBerry Desktop Manager. Download 'xogee_bb.zip' file from <http://www.xogee.com> and extract files.

Open the Desktop Manager and select '**Applications**'. Click '**Import files**' and select 'XogeeTrader.alx' from the related folder. Click '**Open**'.

The application is now displayed in the Application Loader.

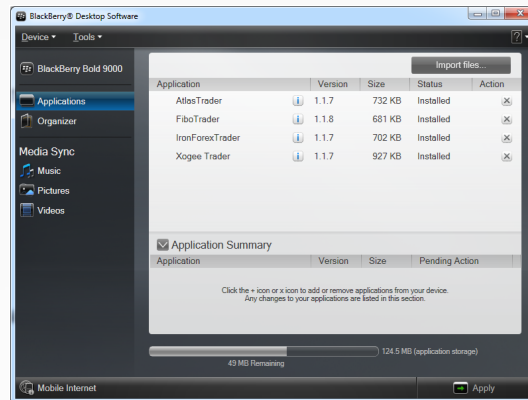

To install the application click '+'

Then click '**Apply**' in the bottom right corner.

The **Update complete** screen confirms the download was successful.

How to Find and Install using your Blackberry Smartphone.

Go to '**Browser**' in your Smartphone and type <https://services.xogee.com/bb/XogeeTrader.jad> then click '**Enter**'

On the next page click '**Download**'

Click '**Ok**' after the installation

How to Log in

Once installed, the application will appear in the **Downloads** folder. Open the **Downloads** folder and select the 'Xogee Trader' icon.

Important note: The application is designed for all the Blackberry models running OS 5.0 and higher. Both touch screen and classic models.

The application will launch directly to the **Login** screen where you can enter your account details: enter your login number and password for your Trading Account.

Select your **Trading Server** and **connection type**.

Important note: To connect to trading servers and use your application with Cellular data network (GPRS) make sure that the APN ("Access Point Name") is specified on your Smartphone.

On the Smartphone go to Options->Advanced Options->TCP/IP and enable APN settings. Contact your mobile provider for further information.

Xogee Trader doesn't work with 'BISB' connection type!

The **Save password** option is enabled by default. If you don't want your password being saved, uncheck this option.

Once you have tapped the login button, it will attempt to connect to the server and log you into your Trading Account. Once the login process is complete, the home screen will appear.

Saving account details

When logging into your account, the application allows for the details of multiple accounts to be saved. This “**save account details**” option, allows you to choose which accounts you wish to save your passwords for (i.e. Demo accounts) and which accounts you wish to remain unsaved

You have the option to save your Account details, including your password, or to save without the password.

To save your account password within the Blackberry Trader, please ensure the **‘Remember Password’ option** is ON when logging into the account.

To save your account details without the password, simply switch off the **‘Remember Password’ option** within the settings menu before logging into your Blackberry Trader.

Once you have logged into the account, this can be found listed within the account number field, of the log in form. To access your list of account numbers, simply click on the account number field.

Navigation

Navigation of Xogee Trader menus is done from the top bar on each page, where you enter the menus using the Xogee Trader icons.

Rates

Shows you the list of all tradable instruments.

Favorites

You can store your favorite instruments that you would like to access quickly and easily – the instruments can always be viewed in this area.

Trades

This function shows your order details: open positions, pending orders, account status including: Current Profit/Loss with swap and commission, Balance, Equity, Credit, Margin, Free Margin, Margin Level.

When viewing your trades you have a number of options, you can view these as the deposit currency, as points or alternatively using the collective view. The collective view allows you to group all trades of the same currency, giving you a more comprehensive view of your trading activity. All options can be found by selecting the Blackberry 'menu' button.

History

Your trade history gives you the ability to monitor your closed orders, removed pending orders, Profit/Loss result with swap and commission, deposits, withdrawals and credit within any given time frame.

News

The News function allows you to access financial news.

Mail

The Mail tab provide you access to internal mailing system. Once you have opened the mail article, you are able to delete the article by selecting the 'Delete' option found when pressing the Blackberry menu button.

Trading Functions

Opening a New Order

Opening an order is easy and can be done from the **Rates or Favorites** screens of the platform. Select your chosen symbol to open the options menu.

You have four options:

- Instant/Market Order
- Pending Order
- Chart
- Add/Remove to Favorites

Select 'Instant/Market Order'

For instant orders and pending orders you can select and change the Volume, set a Stop Loss, and take Profit for the order. For market orders you can select only Volume.

Set trade parameters:

- Volume
- Stop Loss
- Take Profit
- Return to Chart

Then click 'Buy' or 'Sell'

When your order has been processed a confirmation screen will appear.

Closing Open Position

To close an open position you must first select the position you wish to close from the **Trades** menu where you will be given the option to modify or close your trade.

Select 'Close'

Your request will be sent for processing. When your order has been processed a confirmation screen will appear.

Partial Close

The partial close option allows you to close part of your trade, leaving the remaining Volume open. In order to partially close your trade, the Volume must be changed within the Volume box. Once making your desired changes you must then click “Close” button. When successfully updated you should receive a confirmation screen.

Open a Pending Order

Opening a trade is easy and can be done from the **Rates or Favorites** screens of the platform. Select your chosen symbol to open the options menu.

- You have four options:
- Instant/Market Order
 - Pending Order
 - Chart
 - Add/Remove to Favorites

Select 'Pending Order'

You will have options for Volume, Stop Loss, and Take Profit. With the pending order you can set the price that you want the pending order to be activated at.

Your request will be sent for processing. When your order has been processed a confirmation screen will appear.

Modifying Open Positions

To modify an open position you need to first select your open trade from the **Trades** menu. By opening the trade you have the option to modify the Stop Loss and Take Profit values.

To confirm select 'Update'

Your request will be sent. When your order has been processed a confirmation screen will appear.

Modifying Pending Orders

If you select a pending order from the Trades menu, you have the option to Update or Delete. You can also change or adjust the open Price, Stop Loss and Take Profit.

When your order has been processed a confirmation screen will appear.

History

Your trade history gives you a comprehensive overview of all your closed orders. First enter the **History** menu and then use the search icon to enter your date range.

Use the scrolling menu to enter the Start and Finish dates.

Click on 'Request' to download the requested history.
